

MILAN GHIMIRE

REACT JS & ANDROID DEVELOPER

As an Android developer with a strong passion for creating intuitive mobile experiences, I'm excited to take on new challenges in the world of React.js. My enthusiasm for learning and growing in web development is driving me to dive deep into React, and I'm eager to apply my problem-solving skills and love for clean, efficient code to build dynamic, responsive web applications. With a solid foundation in app development, I'm now ready to embrace the world of JavaScript and React, and I'm looking for an internship where I can contribute, learn, and evolve as a developer in this exciting new space.
